Master's Thesis

Aug 2019 – **Connectivity of the tropical double ramification cycle**, Supervision of Dr. Dmitry Zakharov,
June 2020 CMU, Department of Mathematics, Michigan, United States.

→ In this master's thesis, we studied the connectivity properties of a polyhedral object known as the tropical double ramification DR cycle. We prove that the tropical DR cycle has the same connectedness property as $M_{g,n}^{trop}$ for a particular choice of parameters.
